## **Report of Sexton**

### **FROM JULY 1, 1930 TO JANUARY 1, 1931**

---

There has been some extensive tree cutting and trimming in Elm Street Cemetery during the summer and fall.

A few marble and slate stones have been reset and there are many more that should be done. The avenues at Riverside Cemetery should have attention. We have completely re-graded thirty-nine of the perpetual care lots during the fall and would have done more had time permitted.

With a substantial appropriation there is much more that should be done in our cemeteries.

Respectfully submitted,

LEON C. TUCKER,

Sexton.

## Report of Fire Engineers

---

The Board of Fire Engineers submit the following report for year ending January 31, 1931:

### APPARATUS

Engine No. 1, Engine No. 2, Ladder No. 1, Pine Valley hose wagon, and two hose sleds in good condition.

3000 feet two and one-half inch double jacket fire hose in good condition, 1650 feet in fair condition, 250 feet one and one-half inch hose in good condition, 200 feet in fair condition.

For the usual running expenses of the department we ask an appropriation of \$3500.00, and for insurance \$352.00, and also recommend the purchase of five hundred feet of two and one-half inch hose.

In common with other communities unemployment and other causes have resulted in greatly increased demands upon this department.

A distressing and discouraging feature of public relief work is the effect it has upon the recipient. During my thirty years service trying to relieve the results of old age, poverty or sickness, I can count upon the fingers of one hand those who seem to be grateful for the aid rendered. Living upon charity seems to destroy their moral fibre and self-respect.

Twenty-seven families have received county aid, in which there are fifty-nine children. Seven children are also inmates of institutions. Seven families entitled to town aid, with sixteen children, have been aided at a cost less than the previous year, while the county expense has nearly doubled.

While there are probably some families in town who suffer for the want of proper food, I have never considered it my duty to force public charity upon them.

Respectfully submitted,

GEORGE A. WORCESTER,

Overseer.

A BIRD'S-EYE VIEW OF PROPOSED  
DEVELOPMENT

*Endicott Park*  
*Millis, New Hampshire*

FRANCIS ASBURY ROBINSON LANDSCAPE ARCHITECT  
BOSTON, MASS. SEPT. 1916.

103 B - 4

The above sketch was made more than 15 years ago. It has lost none of its attractiveness by age. The sketch includes several tennis courts which are not now needed. The ball field is turned around, which is not desired. The graded field, bandstand, roadway and the running track are reasonable developments.

## Report on Parks and Playgrounds

---

The picture of Endicott Park presented on the opposite page was made fifteen years ago. It is not offered as a plan of development but is suggestive of what may be done with the park when the means are available.

The driveway around the park is desirable and possible, making the entrance east of the high school building near the building of the Cabinet Press. The picture shows several tennis courts, which at the present time are not needed. A new bandstand should be built at the west end of the park and seats provided for 500 people, with parking space in the rear. The running track about the graded section of the park is desirable as an athletic development.

Your committee has had the park surveyed by an engineer and the survey shows that the park can be graded to a desirable level without bringing in much new material.

No estimate is made of the cost of developing the park along the lines suggested but we believe that a new bandstand should be built at the west end of the park and be of the open door, sounding board type, which can be closed in winter when not in use and can be used in summer for open air concerts and pageants as might be desired.

The grading, road building, bandstand and running track has been estimated to cost in the vicinity of ten thousand dollars. Your committee has no recommendation to make upon this development, but hopes sometime some public spirited person will feel disposed to endear himself or herself to the "hearts of his countrymen" by making a bequest in his or her will that will provide the necessary money to carry this suggestion into effect.

Late in the fall changes in the location of the ball field and the removal of some of the trees which have long been troublesome was commenced, but there was not time for its completion before the cold weather arrived. The grading of the ball field and the improvements begun will be completed early in the spring and will require the entire balance on hand.

The bath house at the swimming pool was not built last summer. The amount of money appropriated for this purpose was insufficient. It is doubtful if it will be built this summer. The use of the pool was very much less last summer than in previous years. Some objections have been registered by the water board to developing this location for swimming purposes, enough to make the committee hesitate to carry forward any expensive development.

Shepard Park has called for some expense the past year, more than usual, but is entirely justified.

The seats on the Oval were carried away and repaired and given two coats of paint before being replaced. In the fall they were taken up and stored for the winter and will be replaced this spring. This involved an unexpected expense of nearly one hundred dollars but was necessary work.

The playground equipment at the different schoolhouses has been given careful care. Some of it will need painting this spring.

The maintenance of "bubblers" on Endicott Park has been abandoned because of the abuse they received and the expense involved in keeping them in repair. Water faucets now replace them and they are in use only when the park is in use for ball games.

For the general expense account for the coming year we would suggest an appropriation of \$750.

# Report of Water Commissioners

---

While the rainfall has only been about 75 per cent of the yearly average, the wells have supplied sufficient water throughout the year.

It has been a satisfactory year financially as we have paid \$2,000.00 on maturing notes, the interest on our notes, and paid for the new main on Ford street. There will be a surplus of about \$3,000.00 on April 1.

The most urgent need at the present time is for additional storage capacity and feeling that this is an opportune time to have this done, we are submitting it to your attention at this town meeting.

Respectfully submitted,

LEON L. JUNKINS,  
RALPH J. GAINEY,  
FRED E. COOLEY,

Water Commissioners.

Article 8. Voted the sum of \$1500.00 for snow removal.

Article 9. Voted the sum of \$100.00 for the control of the white pine blister rust.

Article 10. The report of the Town Manager committee, appointed at the March Town Meeting

in 1928 and continued at the annual meeting in 1929, was heard with additions to the 1929 report. Resolution: "That the Town adopt a Town Manager Plan" was voted on and lost by a *vivi voce* vote, after some discussion.

Article 11. Voted to raise and appropriate \$1100.00 for sewer on Ford street.

Article 12. Resolution: "That the Town raise and appropriate the sum of \$5500.00 to purchase a Motorized Ladder Truck and that the money should be raised by serial notes and that there be a committee consisting of the Board of Fire Wards, and one practical garage man, and one private citizen." This resolution was adopted. Resolution: "That the cost of the new Motorized Ladder Truck shall be financed in the following manner; \$1000.00 to be raised and appropriated for the year 1930, the balance to be covered by an issue of serial notes in denominations of \$500.00 or \$1000.00, bearing interest at a rate not to exceed 5 per cent per annum, said serial notes to be paid and retired in amounts of \$1000.00 each fiscal year of the Town, beginning with the year 1931." This above motion was adopted. The Moderator appointed Fred E. Cooley, garageman, and Samuel R. Goldman to act with the Fire Wards.

Article 13. Voted to raise and appropriate \$400.00 for the maintenance of the Livermore Community House.

Article 14. The Resolution regarding the hard-surfacing of North street was voted down.

Article 15. Resolution: "That all money obtained from sale of lots in the cemeteries be set aside exclusively for the improvement and beautifying of the cemeteries, the Cemetery Trustees to have charge of the same." This motion was adopted.

Resolution: "That the Moderator appoint a committee of three to act in co-operation with the Selectmen to consider the advisability of widening the Stone arch bridge over the Souhegan river in Milford village and if considered advisable to procure plans, specifications and estimates of the cost and report at the next annual Town Meeting; that the sum of \$100.00 be raised and appropriated for the expense of the committee." This resolution was adopted. Committee appointed by the Moderator to act with the Selectmen: Benjamin F. Prescott, A. Wallace Wilkins, and Leon L. Junkins.

Resolution regarding Sewer taxes: "That a Committee of three be appointed by the Moderator to draw up and present to the Town at the next annual meeting an equitable method of assessing sewer taxes; and that pending their report, and action thereon by the Town, that the collection of unpaid sewer taxes be suspended." The first part of the resolution to the words "and that pending" was adopted; the latter part was declared not legal and was lost. Committee appointed by the Moderator on this resolution: Charles W. Robinson, Victor H. Bugbee, and Ralph S. Wodman.

## REPORT OF THE TRUSTEES

To the Citizens of the Town of Milford:

The trustees of the Milford Free Library submit herewith their annual report, together with the report of the librarian.

At the annual meeting of the trustees on March 31, 1930, Mr. Marcus G. Bourn was elected chairman; Mr. Benjamin F. Prescott, treasurer, and Miss Ruth D. French, secretary. Miss Annabell C. Secombe was re-elected and Mrs. Mabel H. Plante assistant librarian. The following Reading Committee was appointed: Miss Ella M. Powers, Mrs. Harriet W. Hutchinson, Mrs. Louise Broughton, Mrs. Louise R. Powers, and Miss Margaret Howison.

On June first Mrs. Plante resigned her position as assistant librarian. The trustees regretfully accepted the resignation and engaged Miss Alice Ames to take the position, arranging for her to attend the summer school at Durham.

The library has served a large public throughout the year. As usual there has been close co-operation between librarian and school teachers. At the suggestion of Miss Secombe, the trustees voted to ask the librarian to arrange a series of story hours to be given in March for the children of the community.

The trustees recommend the sum of \$3,000 be appropriated at the annual town meeting for the use of the Milford Free Library.

Respectfully,

MARCUS G. BOURN,

BENJAMIN F. PRESCOTT,

RUTH D. FRENCH,

Trustees of the Milford Free Library.

## REPORT OF THE LIBRARIAN

To the Trustees of the Milford Free Library:

I, herewith, submit the annual report of the Milford Free Library for the year ending January 31, 1931.

Our circulation for the last year was over 40,000 volumes, a good record for a town of this size. While there has been an increase in the circulation of books for the adults, for some reason for the last two years the children have not been doing so much reading. I think it might stimulate the reading habit, if we could arrange to have some story telling hours during the winter months.

Mrs. Mabel Plante after serving very efficiently for two years as assistant librarian resigned June first, and the trustees appointed Miss Alice Ames assistant. Miss Ames had acted as substitute during the preceding winter.

The following statistics give the work and resources of the library during the year.

Respectfully,  
ANNABELL C. SECOMBE.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board of Milford:

I herewith submit my twelfth annual report which is also the twenty-sixth in the series of such reports.

### Organization of Union No. 40

Milford continues in the same supervisory combination with Amherst, Brookline and Mont Vernon. Joint expenses are divided so that Milford pays 60%, which means \$1140 toward the Superintendent's salary and \$480 toward administrative expenses including office clerk.

### High School

The turn over in the teaching staff seems to become greater and greater year by year. Since last June the Headmaster, Submaster and four assistants have changed. Mr. Hall has become Superintendent of Schools in the Hudson union. His place was filled by the appointment of Mr. J. J. Morgan, Jr., a graduate of Dartmouth 1926, with teaching experience of two years at Amherst, and one year each at Epping and Hillsboro. Mr. Jarvis T. Beal left after five years as Submaster to become Headmaster of Conant High School at East Jaffrey. Mr. Edward I. Erickson, a graduate of Bates College and a member of the teaching staff at Newport last year, fills the vacancy. Mr. Robert E. O'Neil accepted a position in the Mechanic Arts Department at Norwood, Mass., High School. To fill this vacancy Mr. Harold A. Hadley of Lebanon was secured. Mr. Hadley has had training at the Wentworth Institute and ten years of experience as a practical shop mechanic. Other new teachers are Miss Phyllis Forbes, a Plymouth Normal School 4-year graduate; Miss

Ruth Little, a Plymouth Normal 3-year graduate; and Miss Blanche Dufault, Plymouth Normal 4-year graduate. These replace Miss Child, Miss Tebbetts and Miss Nichols. Other details concerning the organization and activities of the High School will be found in the Headmaster's report.

Biology is being taught this year for the first time. This is possible now that we have better laboratory facilities. The plan of this subject is unlike the old type of course which gave one-half year of Zoology and one-half year of Botany, with much dissection and drawing. Instead, emphasis is placed on the application of Biology to personal and community health and to civic and economic life. The work includes lectures, recitations, discussions, laboratory work, and special reports. A minimum amount of equipment has been purchased this first year. Other items will be added from year to year, the result being no large outlay at any one time.

The recent alterations to the High School building, made during the last summer, are proving to be very effective for instructional purposes, providing as they do a fine laboratory for science work and two good commercial rooms on the third floor. Minor classroom changes included the enlargement of a small room on the second floor and the division of the very large west room on the ground floor into two regular sized and much needed recitation rooms.

Since the enrollment in the High School seems to be steadily increasing with a prospect of over 400 being registered next September, the time may soon come when the assembly hall will have to be made into two schoolrooms, a plan that is probably the best solution, especially if a combination gymnasium-assembly room can eventually be built over the shop as outlined on architects' sketches made a year or so ago.

More details of the summer alterations, with suggestions and recommendations for future changes, will be found in the report of the building committee.

### **Elementary Schools**

Two changes in teachers have occurred in the elementary schools. Miss Mary E. M. Mack declined re-election at the Osgood school after teaching in Milford ten years, three of which have been at the Osgood school. Miss Mack has definitely retired from teaching, having completed forty years of service in this profession. She has decided to make her permanent home in Milford. Her place has been filled by Miss Mary McGettigan of Wilton, a graduate of Keene Normal School, 1922. Her experience has been at Hooksett, and last year as substitute to complete the year after January 1 at the Greeley school in Amherst. At the village elementary building, the fifth grade vacancy was filled by the appointment of Miss Kate E. Brooks of Antrim, who has taught five years at Jaffrey and two years at Lexington, Mass.

The new elementary building has ample room to take care of all pupils in town in Grades I-VI, including those in the four one-room schools which are open, and still have fifty-seven vacant seats. Hence the question naturally arises whether to close the rural schools and transport the pupils to the village or continue as now. The situation at each rural school will be considered in turn.

**Osgood School** with Grades I-VI has 25 pupils, seven of whom have to be transported over three separate routes, one of which also serves the upper grade pupils who are assigned to Junior High School in the village. Although closing this school might be accomplished with a small financial saving yet the total number enrolled and the numbers in each

grade, together with the fact that the building has been thoroughly remodelled and meets modern standards seem to fully justify keeping it open.

**Pine Valley** has a new modern two-room building and enough children so that Grades V, VI, VII and VIII have to be transported to the village. The question here is not a matter of closing the school entirely but of transporting enough more children in addition to Grades VII and VIII so that the room will not be overcrowded. At present Grades I-VI are maintained with a total of 22. The adjustment is easily made because a transportation route is necessary in any case.

At the **Laurel School** the situation is quite different. This school can hardly be called a rural school; it is rather an additional primary room with Grades I-III only, now totaling 19. It would be quite possible to have all of these children attend at the new building. Since the distance is well over one mile and the children are small, transportation would almost be necessary even though not required by law. The cost would be less for transportation than for maintenance of the school and the advantage to the children greater to be up town in single grades.

The **North School** presents a problem unlike any of the others in that there are but 13 children distributed in six grades with few per grade. It would be a decided advantage for the children to be in larger classes, and since transportation for Grades VII and VIII is maintained, the financial saving by closing the school would be great. It would seem, therefore, that this school should be closed and all children carried to the village. Minor reasons should not interfere with the maximum advantage to the pupils.

**Federal Hill School** has been closed for several years due to few pupils and feasibility of transporta-

tion now that roads are improved and kept open in winter. The building is deteriorating and should be sold—accordingly an article is in this year's school warrant to decide the matter definitely.

### Costs

In last year's report this subject was briefly discussed, reference also being made to the 1929 report which contained full data. The latest information available shows, as heretofore, that school costs in Milford compare most favorably with other districts in the state. For example, the cost of high school instruction per pupil for 1929-1930 was \$75.55 with the state average at \$103.58. There were but three high schools in the state with a lower figure. The entire per pupil cost with all items, instruction included, was \$90.35 compared with a state figure of \$134.65. On this basis only two high schools in the state were lower. For elementary schools the per pupil cost using all items was \$65.14 with the state figure at \$84.00. An important figure to know is that which represents costs in proportion to valuation. For Milford last year the "current cost of public education per \$1000 of equalized valuation" was \$8.51, which gives Milford 88th position; that is, there were 87 districts in which the cost was less and 156 in which it was more. The lowest figure was \$3.23 for Livermore, and the highest \$22.15 for Acworth.

On the basis of salaries paid teachers, figures for the last school year show that the average salary for women teachers in the Milford elementary schools was \$1017; for the state it was \$1104. Similarly for high school Milford paid \$1236 and the state \$1466. The situation in Milford will approach this average soon, however, as elementary teachers are due to work up to \$1100 by regular increments of increase. The women teachers in the high school

already have \$1400 to look forward to as a maximum.

As has been continually pointed out the teacher is a vital part of the school system and the securing and keeping of excellent teachers is the key to good schools. And the key to good teachers is the salary schedule.

### **Conclusion**

In conclusion we may well sum up the object of schools in the words of John D. Rockefeller, Jr., "Every ambitious self-respecting individual wants to make a living. But in this money-mad age we do well to remind ourselves that after all the real purpose of our existence is not to make a living but to make a life, a worthy, well-rounded and useful life. In the long run, therefore, anything that defeats that purpose is not worth the cost."

Respectfully submitted,

HAROLD C. BALES.

## REPORT OF HEADMASTER OF HIGH SCHOOL

---

To Harold C. Bales, Superintendent of Schools of Milford, N. H.:

I herewith submit my first annual report as Headmaster of Milford High School.

### Last Year's Activities

1. 1921 Prize: The ninth award of the Class of 1921 Prize of \$5.00 was won by Eileen Clarkin. The title of her essay was "The Value of Town Planning for Milford."

2. Sophomore Prize Speaking: Again through the generosity of General Kaley, the fourteenth annual "Kaley Prize Speaking Contest" was held on June 6, 1930. The four girls and four boys selected for the final contest were: Phyllis Ashford, Dorris Campbell, Elizabeth Holt, Florence Thomas, Salvatore Grasso, Harry Gutterson, Fred Luongo and Ray Sargent. Harry Gutterson received first prize of \$10.00; Elizabeth Holt, second prize of \$5.00. Each of the other contestants received \$2.50.

3. Junior Prom: The annual Junior Prom and Reception to the Seniors was held by the Class of 1931 in May 1930. As usual, it proved to be one of the most popular and best attended school functions of the year.

4. Washington Trip: The Class of 1930 visited Washington, D. C., during the April vacation. Chaperones were teachers, the class advisor, Miss Herlihy, and Mr. Carl W. Talbot.

### **Activities This Year**

Each year educators are subscribing more and more to the doctrine that the function of the public school is not so much to teach subject matter as to aid in the full development of character. The possibility for development of character through physical education, clubs, and other programs is as great or greater than through the classroom. This fact leads to the conclusion that the best extra curricula program is the one which provides opportunity for the greatest number of pupils. Our physical education program is limited to the few superior individuals who play on the school teams. This means that for every pupil in our school who receives training in some branch of physical education, there are fifteen to twenty who do not. Ten girls play basketball; ten boys participate in the same sport. The members of the baseball team are chosen mainly from the same boys. At the most the school does not provide an adequate physical education program for more than fifty individuals, approximately one-seventh of the school population.

“A sound mind in a sound body” should be the slogan for every child who passes through the school. There are good books and good teachers for them, but the present physical education plant is inadequate.

There are several activities in which pupils take part. They are as follows:

1. Assemblies: Each school day the period from 1:00 P. M. to 1:20 P. M. is reserved for general and home room assemblies, class, and club meetings. The size of the Assembly Hall and the range of ages in the building make it advisable to hold assembly for the school in two groups. This year grades 10, 11 and 12 have met as a "Senior" Assembly, while grades 7, 8 and 9 have met as a "Junior" group. Outside speakers, school officials and pupils have taken part in these meetings.

2. Singing: Music is a required subject in grades 7 and 8 and is elective in grades 9 to 12. On Monday and Wednesday the assembly period is used for all pupils in grades 9 to 12 who are interested in chorus singing. In addition a course in "Theory of Music" is taught. The music teacher has been working under difficulties this year. The only piano in the building is in the Assembly Hall. Since this room is of necessity used for study pupils it has been very difficult for them and the music class to concentrate on the work at hand. In addition, the room is far too large for a small music class. If a small piano could be bought and placed in one of the classrooms it would be much better for the music pupils, the teacher, and the pupils who study in the Assembly Hall.

3. Dramatics: All school dramatics have been in charge of pupils and members of the faculty. Several short plays have been given in assemblies by various classes as a part of their regular English work. Short entertainments have been given by the members of the Freshman and Sophomore classes.

Senior Play: On December 19, 1930, the members of the Class of 1931 presented the comedy, "Come Out of the Kitchen," at the town hall.

Junior Play: The Class of 1932 has successfully presented the play, "Cynthia's Candlesticks," on February 6, 1931, at Red Men's hall.

The Class of 1933 is planning to give a short play in April.

4. Physical Exercises: As in other years the policy of corrective physical drills has been maintained. The school was divided into four groups, each in charge of a teacher or pupil. Daily outdoor drills were held until after the Thanksgiving recess. During the winter months, the pupils of each home room have exercised before open windows daily. This is Milford's only universal physical education program, excepting, of course, examinations which are conducted by the school doctor, assisted by the school nurse, and the teachers.

5. Basketball: Last year's girls' team won a fine cup, emblematic of the championship of the Monadnock League. Our boys and girls belong to the League again this year, and are giving very good account of themselves in spite of practice conditions that keep the squads down to a minimum. This inter-school play makes for better relationships between Milford and other towns in our section of the state.

6. Baseball: Last year's baseball team won the championship of the Monadnock League. We are expecting to have a team this spring.

7. Football: Late in the fall a football team was formed. This sport, which is played in many schools of the size of Milford, was made possible through the generosity of citizens of Milford and the School Board. One practice game and one regular contest were held. We hope for a full schedule next season.

### **Guidance**

One of the primary functions of the work in Grades VII and VIII is guidance. In Milford our Program of Study is arranged so that pupils have a good opportunity to try out subjects. General Science gives them an introduction to Physics, Chemistry and Biology. The Algebra and Geometry of Grade VIII tests the pupil's aptitude for the Mathematics of the high school. Cooking and Sewing, and Manual Training give a good try-out for later courses in this field. This year the course in Junior Business Training has been introduced in Grade VIII which serves to introduce commercial work. Thus in addition to carrying on work in the tool subjects our seventh and eighth grades give pupils a taste of the various subjects of the high school. When the time comes for the selection of the curriculum pupils and teachers are better able to choose the one which is best suited to each individual.

### Enrollment

The total enrollment for 1930-1931 is the greatest in the history of the school. There are 395 recorded as compared to 372 at this time last year. The Freshman class with its enrolment of 93 pupils is mainly responsible for this increase. The membership on January 30, 1931 is 376 as against 349 at this time last year. Of this number 191 are girls and 185 are boys, distributed according to age and grade as follows:

Age	Grades						Sp.	Tot.
	VII	VIII	IX	X	XI	XII		
11-12	5							5
12-13	31	12	3					46
13-14	14	31	17	2				64

Distribution of pupils in Grades IX-XII by Curricula:

Academic Girls	14	7	10	4	35
Academic Boys	2	4	3	2	11
Commercial Girls	35	23	17	18	93
Commercial Boys	10	8	10	5	33
General Girls	1	0	8	4	13
General Boys	0	1	4	0	5
Mechanic Arts	22	16	5	10	53
1930-31 Totals	84	59	57	43	243
1929-30 Totals	71	59	44	44	218
1928-29 Totals	79	50	43	35	207

It is evident by the above table that almost 52% of the whole school is enrolled in the Commercial Curriculum. Of this group about one-fourth are boys and three-fourths girls. In 1928 Commissioner Butterfield recommended that most boys be advised not to enroll as commercial pupils, as this type of training in many cases leads to blind alley jobs. The opportunities for advancement along the lines of Stenography and Typewriting, for boys, do not compare favorably with other lines of work. Therefore, unless there is a special reason why a boy should go into the Commercial Curriculum, he should be advised to take up one of the other types of work.

Do we need another curriculum for those boys and girls who are not fitted to do Mathematics, French, Latin and Commercial work? A great many pupils elect the Commercial course because it represents, to them, the only way to avoid the Latin of the Academic course and the French and Mathematics of the General course. Our present General course corresponds pretty closely to the Scientific course of other schools. I feel that we need another curriculum in the school. It should be rich in Social Science content, with such other subjects as general shop work, Home Economics, Biology, and General Science.

### **General Curriculum Requirements**

1. All pupils must take a year of Science in grade 9, 10, 11 or 12.
2. All girls must take Biology, or Nursing and Physiology.
3. To secure any credits in Latin or French, two full years must be taken and passed.
4. Economics and Sociology are required for a Commercial diploma.
5. All boys in Grades VII and VIII must take Manual Training.
6. All girls in Grades VII and VIII must take Cooking and Sewing.
7. By law all pupils in New Hampshire must take United States Constitutional History in order to receive a diploma.
8. Sixteen units are required for graduation.

### **Tuition Pupils**

On January 30, 1931, there were 48 tuition pupils distributed by grades and towns as follows:

Grade VII, 1; Grade VIII, 4; Grade IX, 17; Grade X, 5; Grade XI, 14; Grade XII, 6; Special, 1; Total, 48.

Amherst, 6; Brookline, 3; Francestown, 6; Greenfield, 8; Greenville, 4; Harrisville, 1; Lyndeboro, 9; Mason, 1; Mont Vernon, 9; Rindge, 1; Total, 48.

### **Building Repairs**

The teachers and pupils have appreciated the changes that were made in the building during the summer vacation. The new steel stairs are strong and quiet. The new Science Laboratory is large and well equipped. North lighting and fine new electrical fixtures combine to make this room one of the most cheerful in the building. Directly below the Science Laboratory there is opportunity to construct

a Domestic Arts room of equal size. The present quarters in the basement are poorly heated and poorly lighted. The new toilets in both boys' and girls' basements are very well lighted and clean.

### **Need for Library Room**

At the present time our library facilities are very poor for a school of this size. The few reference books we have are located in the headmaster's office. The room is small, with no provision for immediate reference work. Some of the headmaster's work is of such a nature that the presence of several pupils is embarrassing. Parents do not like to discuss their children's affairs before other pupils. Some plan for organizing a school library with a teacher or pupils in charge should be formulated for the good of all concerned.

National Education Week was observed by daily programs. Thursday, November 13th, was visitors' day. In the evening the Milford Woman's Club held a reception in the Assembly Hall for the teachers of Milford. During the afternoon and evening over 150 visitors inspected classes and changes in the building. We hope that the parents and friends of the pupils will come again many times in the future.

Respectfully submitted,

J. J. MORGAN, Jr.,

Headmaster.

## REPORT OF SCHOOL NURSE

---

To Mr. Harold C. Bales, Superintendent of Schools,  
Milford, N. H.:

The following is my fourth report of the health work in the Milford schools, it being the twelfth year of this work.

The annual medical inspection was made in October and November by Dr. Hinds, the nurse assisting. A tabulated account of this inspection will appear on another page.

The eye and ear tests have been completed. The results show one hundred and fifty-four children to have defective vision and four with defective hearing.

In averaging the weights and heights of the children I find that there are fifty-eight ten per cent or more under weight.

Eighty-six visits were made to the schools, at which time classroom inspections and short health talks on personal health were given. However, this was done mostly in the primary and elementary grades. Special attention has been given to individual children.

Minor injuries of the children in the town schools have been treated either in my office or at school. The general health of the children is good and there have been only a few prevailing contagious diseases.

Visits have been made to the homes in follow up work for the correction of physical defects. Twelve children were taken to Nashua to Mental Clinics. Twenty children have had tonsil and adenoid operations during the past year through my assistance. Occasionally children are taken to Nashua to other clinics or to the optometrist for glasses.

Twelve lessons in Practical Nursing procedures

were taught to the girls in the Junior class of the high school.

This year, if it meets with approval, I should like to teach a course in First Aid to the upper classes of the high school.

In conclusion, I wish to express my appreciation to the school officials, teachers, pupils, and parents, for their co-operation in the past year.

Respectfully submitted,

EMMA L. SMITH, R. N.

February 10, 1931.

## REPORT OF BUILDING COMMITTEE

---

A committee appointed in 1929 to make recommendations for a new gymnasium reported at the annual meeting in 1930 that certain changes and improvements to the high school building should take precedence over a gymnasium in a program of improvements. This recommendation was approved and the district appropriated money to carry out several plans.

These included new toilet rooms in both basements, boys' and girls'; a new laboratory which involved major alterations on the third floor and the changing of the stairs; remodeling the Commercial room with new desks; and changes in two classrooms at the west end of the second floor.

Detailed plans for all the changes were made by Haynes & Mason, school architects in Fitchburg, and were studied and approved by the school board and special committee.

A contract was made with Cassidy Brothers, who were low bidders on the job, and work started as soon as school closed in June. It was practically finished by Labor Day.

There was some question as to whether sanitary and adequate toilets, or a new boiler, was the most pressing need of the school. But there was no question that both were needed more than a gymnasium, though the desirability of the gymnasium is recognized by everybody.

An inspection of the old boiler last year gave encouragement that it would last a little longer. It has been in service since 1894, often repaired and constantly overloaded.

The next important step in the program of improvement is to renew and modernize the heating plant. After that is done further consideration can

be given the gymnasium plans, for which architects' drawings and estimates are in the hands of the school board.

The committee recommends that an appropriation be made for new boiler and improvement of the heating system.

\*Residents of Milford, but died and were buried elsewhere.

Of the deaths in town in 1930, 13 were carried out of town for burial; Amherst, N. H., 4; Brattleboro, Vt., 1; Hollis, N. H., 1; Holyoke, Mass., 1; Mont Vernon, N. H., 1; Malden, Mass., 1; North Newport, N.H., 1; Pittsfield, Me., 1; Wilton, N. H., 1; Wilmington, Mass., 1.

Eighteen were brought from away for burial. Some were long ago residents. Of the 44 deaths recorded, 3 were between 90 and 100; 3 between 80 and 90; 8 between 70 and 80; 8 between 60 and 70; 8 between 50 and 60; 6 between 40 and 50; 2 between 30 and 40; and 6 under 30. Of these deaths 23 were male and 21 were female. One or both parents of 25 were born in other countries.

The vital statistics of a town are one of its most important records, not merely for today but for generations to come. If everyone would see to it that the records of their own families were fully and correctly filled out on the Marriage, Birth, and Death certificates when handed in, it might be of great use to them or their descendants at some future

day, and a great help to us in making out the records of to-day.

I hereby certify that the foregoing returns are correct according to the best of my knowledge and belief.

HIRAM C. BRUCE,  
Town Clerk.
